ABOUT LIS SOLUTIONS

LIS Solutions began in 1994 by supporting the Department of Justice and its industry partners. Since then, we have become a trusted partner of the intelligence community and provided our customers with advanced solutions in language services, cyber security, intelligence analysis and information technology in all Combatant Commands (CCMDs). LIS accomplishes this through our disciplined methods which are based on balanced, sustainable integration of technology with human talent.

Leveraging our capabilities, resources, and deep experience, we can deliver customized results based on an in-depth understanding of each customer's needs and each project's unique requirements. We succeed in helping our customers make better, faster decisions at critical junctures. Most importantly, we seek to provide safety and security in the United States and around the world.

Immigration and Customs Enforcement

Immigration and Customs Enforcement (ICE) protects the country from criminal organizations, terrorist networks and cross-border felonious activity ranging from illegal immigration and drug smuggling to prostitution and human trafficking. LIS language-enabled analysts, supporting 24x7x365 nationwide operations, engage with Agents to monitor both live and recorded court-authorized intercepted conversations. Our professionals assist the overall intelligence analysis and investigation by culling out critical information communicated during Title III operations that result in the conviction of nefarious characters.

AFCENT

The United States Air Force Central Command (AFCENT) Force Protection defends, secures and safeguards U.S. Air Force facilities and personnel throughout the 20-nation CENTCOM AOR. Through trust, respect and relationships, LIS linguists perform language, administrative and cultural advisory support to help AFCENT personnel engage and interact with Host Nation officials that include military, law enforcement personnel, and civilians. Our customer's mission is enabled throughout the AOR by the engagements LIS personnel facilitate.

DIA OCI CAD

The Defense Intelligence Agency (DIA) is tasked with the collection, analysis, production and dissemination of near real-time intelligence and expertise in support of global military operations. LIS supports the DIA's Office of Counterintelligence (OCI), Counterintelligence Analysis Division (CAD) with highly skilled language enabled analysts who bring language and intelligence solutions to detect, identify, assess, exploit, counter and neutralize subversive activities by foreign entities. We proudly enable the warfighters through our support and ensure the freedom and security of the country.

CYBERCOM

United States Cyber Command (USCYBERCOM) plans, coordinates, integrates and synchronizes full spectrum analysis and intelligence to defend Department of Defense Information Networks (DoDIN) and support cyberspace operations across all domains. LIS plays an instrumental role in the cyberspace mission by collaborating with our interagency, industry and partners to inform, prepare and advance the posture of the U.S. and our Allies. Our professional's provide expertise spanning the full spectrum of the intelligence life cycle to preserve our democracy.

FEMA

The Federal Emergency Management Agency's mission is to protect the American People, the Homeland and the American Way of Life through assistance before, during and after disasters. LIS supports FEMA's mission by providing professional linguists across the country and U.S. territories. We bridge communication barriers and bring humanitarian relief during the most despairing of times, whenever help is needed. In response to the COVID-19 Pandemic, LIS supports FEMA with onsite interpreters at vaccination sites across the nation.
